MB i Series Energizer Range

MB1000i SG30155/G30100 MB1800i G31500 MB2800i G31502

All the smarts and power of the Gallagher i Series and now with the ability to power your energizer with the option of mains, battery or solar power.

Reliable, adaptive i Series technology – Proven Gallagher i Series technology provides complete confidence in continued fence performance irrespective of changes in power supply, temperatures and fence conditions.

NEW power adaptor input – Easy to use, weather tight power adaptor input. Simply insert the supplied mains or battery lead set (shown below) into the back of the energizer.

Easily monitor and control fence performance - Allows fence information to be seen in a convenient location up to 50m away from the energizer

Compatible with i Series accessories – Fully compatible with i Series remotes, fence remotes, alarm controller and the supplied display monitor (shown below)

Power your fence, your way – Mains, battery or solar. Energizer comes complete with a mains and battery lead set for all power source options (Solar panel sold separately for solar powered solutions)

MB2800i

Suitable for fencing all animal types on farms up to 300 acres.

INCLUDED

Fence Energizer and Energizer Controller

G50700

G51000

SYSTEM UPGRADES

G56700

G57900

G49600

MB1800i

Suitable for fencing all animal types on farms up to 190 acres.

INCLUDED

Dashboard Fence

G56700

Fence performance in your pocket

The new Gallagher Dashboard Fence App* shows you your fence voltage, current readings, and sends you alarm notifications when things go astray. Finally you can be confident your animals are still behind the correct fence and not eating your crop or visiting the neighbours bulls. Simply connect our new i Series WiFi Gateway to your existing Gallagher i Series Energizer, install the App and subscribe to our new service to bring your fence to life.

View fence performance summary

Check fence zone performance

Lightning Protection - The Energizer is fitted with lightning protection*
*Gallagher recommends the use of an external lightning diverter to give increased protection.

High performance livestock control - Highly efficient Energizer output delivers market leading performance, reliability and stock control

***LED bar graph** - Indicates Energizer performance at glance
*M1400 only

Easy to secure to a flat surface - Keyhole mounting points for fixing the Energizer to a wall or other flat surfaces

***More power in reserve** - Adaptive output control technology automatically adjusts to suit your fence conditions
*M1400 only

Gallagher trusted reliability - Extensive testing and industry leading manufacturing processes provide exceptional reliability under harsh farm conditions

***Safe and simple to connect** - Split bolt fence terminals make the Energizer safe, hassle free and quick to install
*M1400 only

S400 & S200 Portable Solar Fence Energizer

G36110 & G36010

Convenient, fully integrated portable power. The S400 and S200 Solar Energizers come complete with solar panel, rechargeable battery, leadset, and mains recharge kit.

360° mounting on steel posts for correct orientation towards the sun - allows the Energizer to be mounted on a steel post that is already part of the fence line, regardless of which way the post is facing.

Fully integrated, ready to use - includes fence/earth leadset, rechargeable 12v battery and solar panel.

Turn on and forget - with automated battery management, the Energizer will continue to work for up to 3 weeks without sun.

Multiple power options - the customer has full control, with multiple operation modes to suit wildlife animal exclusion and livestock animal inclusion.

Battery Status Indicator - LED light shows battery health in an instant.

NEW FEATURE

Dual solar panel design - improved solar reliability with split solar panel design. Separating the solar panel in two, means that if one is covered by vegetation, the second panel will continue to charge battery.

Portable and quick to install - easily set up in any location and moved about as required allowing it to be used for strip grazing and better pasture management.

Water resistant case, with built in lightning protection - designed to be left outside, rain, hail or shine. Keeps stock contained in all weather conditions.

Insulated Line Posts

A tailor made electric fence post, Insulated Line Posts require no machinery to install and come in two different heights with multiple configurable wire spacings to suit the needs of your farm or property.

PART NUMBER	HEIGHT	PACK SIZE	ANIMALS CONTROLLED
Insulated Line Posts			
G74213	1140mm	10	
G74223	1350mm	10	
Insulated Line Post Clips			
G74434	NA	20	
G74703	NA	20	

UV resistant

Warranty

FAST AND SIMPLE INSTALL - The composite post can be easily installed with a hand rammer which reduces installation time and avoids the need for heavy expensive equipment. Wires simply clip onto the post, making it significantly faster than stapling or pinning on traditional post insulator systems.

EASY TO TRANSPORT - Light, smooth and compact. Can be transported inside the farmer's vehicle which further reduces costs.

MULTIPLE CONFIGURABLE WIRE HEIGHTS - Pre-formed wire attachment locations enable many different fence configurations.

LONG LIFE - High quality materials ensure a long life. A UV protected polyethylene sheath protects fibreglass from UV damage.

FLEXIBLE POSTS - The strong yet flexible solid fibreglass core enables the post to flex when the fence is impacted, preventing broken or bent posts, and minimising animal injury.

STRONG GROUND ANCHORING - The multi-flanged foot design ensures strong ground anchoring, reducing the likelihood of post heave or post misalignment over time.

HIGH STRENGTH CLIPS - GF nylon "snap-on" clips form a reliable connection with 160kg holding force - typically twice as strong as most conventional wood or steel post insulator systems.

G74434

G74703

Extra High Voltage Strain Insulator

G74514

Designed for high powered fencing systems and areas where reliable insulation is critical.

Wire diameter

Warranty

**SUPERIOR
INSULATION**

EXTRA STRENGTH AND LONG LIFE - Made from UV stabilised polycarbonate, backed by a 10 year warranty

CREATES SECURE, TIDY END ASSEMBLY - Large, separate tie off ends enable superior insulation and tidy end assembly

EASY TO USE AND REUSE - Streamlined design allows for comfortable positioning in hand during installation; and the wire can be easily cut away for product reuse

SUPERIOR INSULATION PERFORMANCE - Insulation ribs provide 2 x the insulation performance of previous models to reduce chances of stray voltage around critical areas eg. around steel yards

Gallagher Westonfence

Gallagher Westonfence has been designed for the construction of a robust, low maintenance and permanent electric fence. It is fast, easy to construct and, when paired with a Gallagher Energizer, is a safe and cost-effective solution to exclusion and subdivision fencing.

Westonfence Insulated Suspension Post range

Code	Description	Qty pack	Holes	Hole spacing mm

New

TWR-5 Weigh Scale & Reader

G02606

All in one weigh scale, data collector and EID reader (antenna panel sold separately).

Market leading touch screen technology - Full colour, outdoor readable touch screen.

Record treatments on the spot - Animals can be weighed and administered the correct dose rate, all recorded on the weigh scale at the time of treatment.

Animal data analysis on device - Shows individual weight gain graphs, as well as weight distribution plots for all animals within a weighing session.

Ultimate user experience - Execution of tasks have been tested to ensure that we deliver the most farmer friendly experience on the market.

Tough, rugged exterior - Farm ready, tough design.

On board help, 24/7 - The entire product manual is loaded into the product. Help is only one click away.

Animal notes and note alerts - Record notes against animals on the spot for later review.

Comprehensive recording of life data and traits - For farmers wanting to record and review more information than simply weight on their animals. Record up to 9 traits per session.

Draft up to 9 groups by weight, weight gain, predetermined EID list or by recorded life data and traits.

Integrated EID reader - Built in EID reader means the farmer can plug the weigh scale straight in to an EID antenna to record weights and easily scan EID tags. This eliminates the need to purchase a separate EID reader.

The complete package, ready to go - Just plug into your existing load bars and you have everything you need to start weighing:

- Tough and convenient Gallagher carry case
- Mounting bracket
- Micro-fibre screen cloth
- Battery charging cable
- Mains charging cable
- USB drive loaded with APS software
- USB cable for data transfer to PC

Flexible connectivity options - Whether connecting to drafters or readers via a serial cable, to a PC via USB or utilising the Bluetooth and WiFi wireless options, TW scales have every option available.

Flexible mounting options - Easy to use sitting flat, or mounted to a vertical surface. The adjustable mounting bracket allows you to easily tailor the viewing angle for optimum visibility.

TW-3 & TW-1 Weigh Scales

G02603 & G02601

The new Gallagher Touch Weigh Scale range makes weighing and data management easier than ever before. View, manage and analyse your animal data, all on an easy to use, fully intuitive touch screen.

TW-3 only features:

- Record treatments on the spot - Animals can be weighed and administered the correct dose rate, all recorded on the weigh scale at the time of treatment
- Record life data and traits - Ideally suited to farmers wanting to record and review more information than simply weight. Can record up to 3 traits per session.
- Draft by up to 9 groups - draft by weight, weight gain, predetermined EID list or by recorded life data and traits.

Flexible mounting options - Easy to use sitting flat, or mounted to a vertical surface. The adjustable mounting bracket allows you to easily tailor the viewing angle for optimum visibility.

Flexible connectivity options - Whether connecting to drafters or readers via a serial cable, to a PC via USB or utilising the Bluetooth and WiFi wireless options, TW scales have every option available.

TW-1 and TW-3 features:

Market leading touch screen technology - Full colour, outdoor readable touch screen. Large 7" screen, shows weight and gain information in an easy to read font.

Animal data analysis on device - Shows individual weight gain graphs, as well as weight distribution plots for all animals within a weighing session.

Ultimate user experience - Design of the scale and execution of common tasks have been rigorously tested to ensure the scale is easy to navigate.

On board help, 24/7 - The entire product manual is loaded into the product.

Animal notes and note alerts - Record notes against animals on the spot for later review.

Tough, rugged exterior - Farm ready design. Toughened, scratch proof glass screen and water proof casing makes it suitable for all environments.

Dashboard Livestock

Manage your animal information like never before – at home on your PC or tablet, or out on farm with your phone. Simple quick view of crucial animal data whenever and wherever you need it is made easy with Gallagher's new web and mobile product, Dashboard.

- Keep your information safe with online back-up of animal data
- Synchronise data between your phone & APS software on your PC
- Look up weighing session information on your phone
- Look up individual animal history on your phone & record notes if needed

Dashboard Livestock How it works:

Dashboard Livestock - Your livestock in your pocket

Dashboard Lite lets you check and record animal data on your phone when you are out and about on your farm

Lift your profits

Make the most out of your animals
Track weight gain to sale or mating. Analyse which animals are doing well and which are holding you back.

Information at your fingertips

Instant data recall
Look up a weighing session or an individual animal's history to get a quick view of crucial animal data whenever or wherever you need it.

Real time recording

Eliminate the paper trail
Record real time observations on your phone to guarantee accurate and timely data for better decision making.

Why Dashboard Livestock?

Your livestock in your pocket.

- 1 I need a simple way to get my data moving
 - To give staff access to data
 - To send to my advisors
- 2 I want my animal data with me at all times
 - To be able to look up an animal's details
 - To show somebody in my business network a weighing session
- 3 I want to be able to record animal observations directly into my phone in real time and be able to recall these when in the yards
